3	Community Partnerships Report to Community Services Standing Committee	Chris Gore presented a report to the Community Services Committee on Monday, January 20, starting at 4pm. Several SMAP members were in attendance. The report stems from a request from senior staff to bring Ontario's Cycling Strategy (CycleON) to Council's attention. The report provides a brief over of CycleON, and links in what we are doing in Sudbury, along with the work that SMAP is doing. The report positions us well to move ahead with some of the recommendations from SMP, SMAP and some of the inputs to the Transportation Study. This would be an extreme cost for the CGS and taxpayers. North Bay most likely will have to recall their bylaw. Notation was made that CGS councillors agreeing to speed limit reduction in certain school zones.
